

Money Champions

Week 5

Generosity/Thankfulness: What's it worth?

Select 5 different objects from in and around the home (drawings, photographs or images on a screen will also work) Ask your child to sort in order from the most expensive item to the least expensive item. Ask them to explain why they think something is more expensive than another item.

Activity: What can you do?

Make up some price labels using the template below or create your own. Ask your child to guess how much they think each of the item's cost, then reveal the actual price! How close were they to getting it right? Try doing it again ... are they getting any better with their guesses?

Why not try some maths... ask your child if they can work out the difference between their guess and the actual price! Which of the items were they closest with?

Challenge: What Next?

Post a picture or drawing on Twitter or Facebook showing your order of most expensive to least expensive. You could even post a picture showing your child's price guess alongside how much it actually cost.

Tell us what you are doing!

Don't forget to tag us using @justfinancefdn and use the hashtag #MoneyChampions throughout the Money Champion challenges and activities – be as creative and as innovative as possible. We want to see your photos, drawings and videos and anything else you would like to share! We will be looking out for your creative posts and will share as many as possible!
