

# Money Champions

Week 6

Wisdom: What a waste!

Have a discussion about how sustainable living – recycling and not wasting things needlessly – is a way of saving money but also better for the environment.

Activity: What can you do?

Carry out a home audit to work out how much you waste in a day or a week. You could try weighing all the things you waste in a day. Why not split your waste into the things which go into your general rubbish and the things you recycle. Which weighs more?

Have a chat about what you could do to recycle more and how recycling can help you save money. You could try to find some materials you can recycle and use them to make your own money box to save money in.

## Challenge: What Next?

Post a picture of your recycled money box creation Twitter or Facebook and tell us what materials you used and why. Did some materials work better than others? Why do you think this was?

## Tell us what you are doing!

Don't forget to tag us using @justfinancefdn and use the hashtag #MoneyChampions throughout the Money Champion challenges and activities – be as creative and as innovative as possible. We want to see your photos, drawings and videos and anything else you would like to share! We will be looking out for your creative posts and will share as many as possible!
